NORAYBIO SOFTWARE PLATFORM

NORAYBIO SOFTWARE PLATFORM

The perfect software ecosystem for the management of the complete research cycle in biosciences

ANIBIO

- Supervise the activity of the animal facility in real time.
- Keep your tasks and requests up to date with individual notifications.
- Get customisable reports to exploit your data.

ANIBIO PLUS

- Manage animal experimentation units and associated laboratories.
- Keep complete traceability from the entry of animals until the final exploitation of their samples.
- Gather all research data in a single transparent workflow.

NORAYDOCS

- Create, review and resolve requests for research projects.
- Coordinate meetings and tasks.
- Centralise all project-related documentation.

IMPLEMENTATION TRAINING

NORAYBANKS

- Register and modify thousands of samples at once.
- Process samples and get results in customisable forms.
- Manage the storage and sample requests.

NORAYBANKS CATALOGUE

- Make your samples available for the scientific community.
- Keep your samples automatically updated.
- Integrate your catalogue with any sample management software.

BIOINFORMATIC ANSWERS TO SCIENTIFIC QUESTIONS

Innovative software company with more than 20 years of experience in the sector.

Over 250 successful implementations in more than 20 countries.

Our customers are our best reference.
Join our Community!

Continuous evolution based on customer feedback.
